# FRENCH TROOPS HAMMER THROUGH HUN DEFENSE BULWARKS ENEMY'S LOSS IN EFFECTIVES 50000 IN THE LAST FOUR DAYS

## TURN BACK ALL CLOCKS FULL HOUR

The Change of Time Occurs  
Sunday at 2 A. M.

By Associated Press Dispatch.

Washington, October 26.—At two o'clock tomorrow morning the United States will complete its test of "daylight saving." At that hour clocks of the naval observatory here and other agencies by which time is regulated in this country, will be stopped for one hour while the sun which daily has been lagging farther behind the nation's clock has a chance to catch up. At the same time trains on all railroads in the country will stop by order of Director General McAdoo and remain motionless for one hour.

For the average American citizen two o'clock tomorrow morning will mean little. Tonight before retiring he probably will turn back the hands of his timepiece one hour, go to bed and awake Sunday morning with little thought that time has been turned backward in its flight. Should he not turn back his watch or clock and if he adheres to his usual hour of rising he will fail to get back the hour lost last March when clocks were changed.

## DR. SOLE ADMITS ALSACE-LORRAINE QUESTION COVERED

(By Associated Press Cable)

Amsterdam, October 26.—"As for Alsace-Lorraine it is at once clear that as these territories were expressly mentioned among President Wilson's 14 points we agree to regulations of these questions," said Dr. W. S. Sole, German Foreign Secretary, in addressing the Reichstag on Thursday.

In the address referred to President Wilson said that: "the wrong done to France by Prussia in 1871 in the matter of Alsace-Lorraine which has unsettled the peace of the world for nearly 50 years should be righted."

## HEAVY FIGHTING YIELDS GAINS

By Associated Press Dispatch.

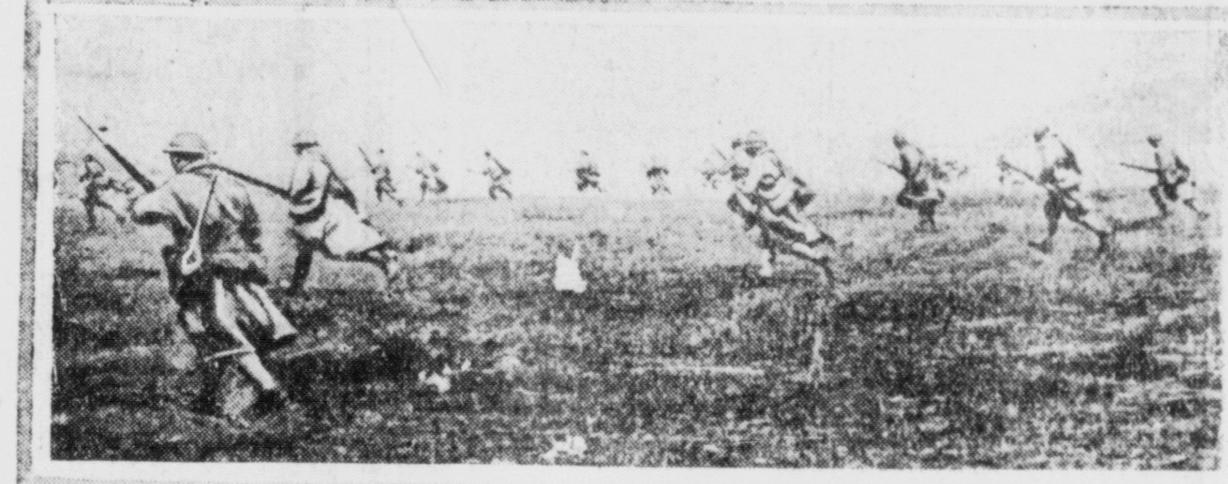

Washington, October 26.—Heavy fighting on the Verdun front is described in Gen. Pershing's communiqué for Friday. Strong German counter attacks east of the Meuse were repulsed everywhere except in Vellue wood where four successful assaults forced the partial withdrawal by the Americans. West of the Meuse the American lines were further advanced in the face of determined resistance.

## FREIGHTS INCREASE ALLOWED BY I. C. C.

By Associated Press Dispatch.

Washington, October 26.—The interstate commerce commission today approved proposed increases in express rates to become effective unless another method of giving the American Railway Express Co. added revenue is worked out with the railroad administration.

### FRENCH INFANTRY IN DASHING ATTACK

FRENCH INFANTRY CHARGING GERMAN POSITION

A remarkable photograph of a dashing French charge upon a German position. With trench warfare slowly changing into the open method of dashing to the attack and digging in, the French and their Yankee comrades find themselves right at home. This photograph was taken recently during the heavy fighting on the western front.

## OFFER OF PEACE IS A SURRENDER

(By Associated Press Cable)

London, October 26.—The Turkish minister to Switzerland has handed the British and French ministers to that country an offer of peace virtually amounting to surrender, according to a Berne dispatch to the Daily Mail.

## YANK AIRMEN BAG BUNCH OF BOCHE PLANES

Eleven Planes and One Balloon Were Brought Down by Men Working With British.

By Associated Press Dispatch.

Washington, October 26.—Eleven airplanes and one balloon were brought down by the American aviators brigaded with the British from September 9 to September 22, the War Department was informed today through a Royal Flying Corps com-

munity. British distinguished service crosses were awarded to many Lieutenants among whom is T. J. Herber, of Cleveland.

Another Lieutenant mentioned as having brought down enemy planes is F. E. Luff, of Cleveland.

## GERMANY WAITS FOR THE TERMS

(By Associated Press Cable)

London, October 26.—The German government is not contemplating at present any further note to President Wilson, says an Exchange dispatch from Copenhagen.

It is probable that the government will make a declaration to the effect that Germany is awaiting the peace conditions of the allies.

While the new price basis probably will mean an advance of the price to consumers on ham, bacon and lard it was explained in a summary of the conference, issued here, that the peace talk with its vision of a corn market flooded by low priced corn from Argentina and South Africa, had reduced the market price of that cereal 25 to 40¢ a bushel.

The consequence was a near panic among hog raisers who saw similar declines in the prices of their market animals and therefore rushed their stuff to market.

## ESTABLISH THE PRICE FOR HOGS

By Associated Press Dispatch.

Chicago, October 26.—A minimum price for hogs for November has been fixed at \$17.50 as the daily average for packers' droves. A minimum of \$16.50 has been fixed for all other hogs except "throwouts" which consist of hogs under 130 pounds, stags, boars, sows and skips.

As packing house products have been selling on a basis of \$16.50 for hogs the announcement today for the new basis resulted in a big jump of prices of pork, lard and ribs.

While the new price basis probably will mean an advance of the price to consumers on ham, bacon and lard it was explained in a summary of the conference, issued here, that the peace talk with its vision of a corn market flooded by low priced corn from Argentina and South Africa, had reduced the market price of that cereal 25 to 40¢ a bushel.

## SHOW DECREASE

(By Associated Press Dispatch)

Camp Sherman, O., October 26.—Among three deaths which occurred at the cantonment during the 24 hour period ending at noon today was Laura H. Burden, nurse, of South Bend Indiana. The other deaths were Clarence Wilson, of Dubley, Louisiana, and Virgil Hite, of Grandview, Ohio.

The total deaths now are 1053.

## FIGHTING ON LARGE SCALE WITH AUSTRIANS ISLANDS IN PIAVE RIVER TAKEN THURSDAY DIVISION OF AUSTRIAN FORCES ALLIES' AIM

The American Troops on the Meuse Encounter Heavy Enemy Reaction But Continue to Make Advances on Whole Line, Taking Important Strategical Positions.

(By The War Editor of The Associated Press)

French troops facing the southern bulwark of the German defenses in France continue to make important dents in the enemy's positions along the Serre river and eastward while the British hammer at the pivotal point around Valenciennes.

## FRENCH TAKE MORTIERES

Southeast of Marie the French have captured Mortieres on the Serre, while further east in the region southeast of Mont Cornet General Petain's men have smashed through the German line on a front of four and one-half miles to a depth of two miles at certain points. The German defenses here were formidable, having been prepared in 1917 and continuously reinforced.

## 15000 TAKEN IN 4 DAYS

In the last four days the Germans have lost nearly 15,000 prisoners and 200 guns, according to unofficial estimates in Paris. The enemy losses in effectives are declared to have been not less than 50,000.

## ENCIRCLING VALENCIENNES

In the encircling of Valenciennes the British have gained new successes north and south of the town. On the edge of the Mormal forest on the south Field Marshal Haig's men have taken several villages. In the bend of the Scheldt river northwest of Valenciennes the British have moved eastward and captured more villages.

## AMERICANS HOLD GAINS

The American troops on the sectors east and west of the Meuse are being subjected to strong German reaction, especially with artillery, but maintain their hold on the new ground won Friday. North of Grandpre the Americans have strengthened their positions in the southern part of the Bourgogne Wood.

While the British, French and Americans are slowly breaking their way through the stubborn defense along the line south of Valenciennes, the attention of the allied world is directed for the moment at least to the Italian front where General Diaz seems to have started a major operation.

## ITALIANS MAKE GAINS

Fighting on a large scale appears to have been begun on Thursday when the Austrian official statement reported heavy artillery fire from the Brenta river to the Montello plateau. It was reported yesterday that Italian, British and French forces attacked between the Brenta and Piave rivers and advanced over rough country for a considerable distance. At the same time the allies moved ahead and captured islands in the Piave river above the Montello plateau.

This stroke was aimed at the angle in the Austrian line which runs from the Adriatic along the Piave until it reaches the mountains and thus turns to the west. If the allied attack makes material progress the Austrian armies on the lowlands near the sea and those holding the front in the mountainous sector may be divided.

## AUSTRIAN MORALE LOW

The number of prisoners, 3,000, would seem to indicate fighting of a serious nature. It is too early to determine whether General Diaz has really begun an offensive or is merely directing an operation which is in the nature of a diversion. It may be the morale of the Austrians which has repeatedly been reported to be very low, will be determined by the fighting during the next few days.

## AUSTRIA WILL DEMOBILIZE

LONDON, OCTOBER 26.—(Associated Press Cable)—An official statement, according to which the demobilization of the Austro-Hungarian army is being prepared, is published by the newspapers of Vienna. This is according to an Exchange Telegraph dispatch from Copenhagen.

## FORMALLY DECLARED THEIR INDEPENDENCE

Independence of the Czech-Slovak nation has been declared formally by the Czech-Slovak National Council. The declaration, renouncing allegiance to the Hapsburg dynasty and announcing principles for a foundation of a republic, was issued in Paris and a copy handed to President Wilson, by J. Cisar, of the Council's staff in Washington. The document was signed by Dr. Thomas G. Masaryk, President of the Council as Premier and Minister of Finance, and by other officers of the Provisional Government.

## ELLA FLAGG YOUNG INFLUENZA VICTIM ILLNESS WAS SHORT

Was Formerly Superintendent of The Chicago City Schools

(By Associated Press Dispatch)  
Washington, October 26.—Mrs. Ella Flagg Young, of Chicago, chairman of the National Women's Liberty Loan Committee, died here today of pneumonia, following a short illness of influenza.

Mrs. Ella Flagg Young was one of the best known woman educators in the United States. She was a leader of progressive educational ideas to which she devoted more than fifty years of her life.

She was chosen superintendent of Chicago's public schools in 1909 from a list of six candidates, five of whom were men educators of national reputation. She succeeded Edwin G. Cooley and was the first woman to be selected superintendent of schools in one of the largest American cities. As head of the public schools of Chicago she was intrusted with the education of 300,000 children.

She inaugurated many important reforms, among these being the teaching of sex hygiene, the enlargement of the kindergarten course, an increase in the scope of the vocational training department and simplification of the curriculum of the primary grades.

Mrs. Young was born in Buffalo, N. Y., Jan. 15, 1845 and was brought to Chicago by her parents, when a young girl.

She was president of the National Education Association in 1910 and 1911.

## City Churches

A Sabbath Service in the Home was the appeal last Saturday of a number of the ministers of Washington C. H. to the members of their churches and to all other citizens who might be interested.

That appeal is renewed today for the 10:30 a. m. hour tomorrow at which time a number of the church bells will ring.

Attention is called to the statement (printed in today's Ohio State Journal) from the officers of the Ministerial Association of Columbus, Ohio.

### Columbus Ministers Advise

#### Revival of Family Prayer

Our churches are closed by the epidemic, but nothing fundamental about the Sabbath has changed.

It is still a day of rest for mind and body, a day of fine and helpful influences, of worship and soul-building; a holy day.

In keeping with this truth, we desire to suggest that at the usual hour for church service Sunday morning the church bells chimes throughout the city be rung, and that our citizens use the immediate ensuing time for the reading of the Bible and prayer.

Further, we urge that in this time of local distress and individual and international agony; this time, when the world's need is calling forth the ministry of intercessory prayer to an unparalleled degree, the custom of family prayer at some time each day be revived in homes where it may have lapsed. In the presence of the family altar the finest character of our early national life was built. These days days are reminding us of its value anew.

A number of Columbus churches have requested their members to have ready their cash offerings. Because church services have been dispensed with collectors are calling on people at their homes.

This collection of offerings is not being made by all the churches here but it is sincerely hoped that each member as an act of worship will enclose his weekly offering in his weekly envelope each Sunday and so have the envelopes all ready to deposit on the church offering plates at the first church service held after the churches are again opened.

A good home service may well consist of all or a part of the following: Hymn singing, scripture reading, sermon reading, Bible stories and prayers for prayer concluding with, or consisting of, "The Lord's Prayer".

Below are a few Bible selections from which readings may be chosen: Jesus Christ's sermon on the Mount; St. Matthew, chapters 5, 6 and 7.

Jesus Christ's last prayer before entering the garden of Gethsemane—St. John, Chapter 17.

Paul's Defense before King Agrippa—Acts, chapter 26.

An "Old Time Love Story" is concluded in the Sunday School lesson for tomorrow. See Genesis, chapter 24, verses 57 to 67. The whole interesting story is embraced in the whole chapter, (Genesis 24).

"The Talento" (parable) Matthew 25, verses 14 to 30.

The Good Samaritan (parable)—Luke, chapter 10, verses 25 to 37.

The Prodigal Son (parable)—Luke, chapter 15, verses 11 to 32.

The Great Supper (parable)—Luke chapter 14, verses 16 to 24.

**EXERCISE CARE**

**URGES PHYSICIAN**

A local physician who has followed the progress of the influenza in this county declares that while present conditions are highly satisfactory and very few new cases of the disease are developing, that the new cases invariably are very severe, and that care should be exercised by those having the disease and the public generally to prevent a fresh outbreak of the epidemic, as occurred with very grave results in several eastern communities.

The physician does not anticipate further outbreak, but offers the suggestion as being most timely.

## WILD GESE ARE BACK FOR WINTER

A flock of wild geese which has made the former Jones estate and Persinger estates in eastern Fayette their headquarters for years, has returned for the winter after having spent the summer in the north woods among the lakes and streams.

The flock is a large one and the return of the geese is taken to indicate that cold weather is at hand.

## TIME CHANGING WAS A SUCCESS

By Associated Press Dispatch.

Washington, October 26.—All clocks in the United States should stop for one hour at 2:00 a. m. Sunday morning, October 27, and then again take up the procession of the hours.

The country will then be back upon a sun-time basis, and finished with its first seven months of day-light saving experiments. Some minor difficulty will be involved in this return to normal time, but for most people, the change will mean nothing more than an extra hour of sleep on Sunday morning, a belated return of the hour they lost in March when clock hands were jumped forward 60 minutes by act of Congress.

Evidently day-light saving was a distinct success, for Chairman Baruch of the War Industries Board asked Congress to extend the hour-ahead system through the coming winter. The Senate unanimously passed a bill to enact his recommendation into law but the bill died in the House.

Senator Calder, who fathered the law, declared that extra day-light saved \$2,000,000 in gas bills for the people. The Fuel Administration estimated that on the seven-month basis 1,125,000 tons of coal had been saved, to relieve possible winter shortage. Definite reports from St. Louis said consumption of coal had dropped 17.5 tons per one thousand population.

These estimates were worked out by comparing coal consumption of central stations with previous years, to determine how much less electrical energy and gas for lighting had been utilized.

These were the demonstrable features and enthusiasts for the daylight saving plan place no limit on the extra health and enjoyment of life secured by the masses of people who found themselves free to use the outdoors under the sun for an extra hour after concluding work. Charles Lathrop Pack, head of the national war garden commission, asserts that the crop from the home plots this year is worth \$525,000,000, an increase of 51 per cent over the 1917 results, and gives much credit to the evening daylight hour for the results.

## DON'T FORGET TO SEND RECORDS FOR THE BOYS

Letters written by our soldiers to their home people inspired the formation of the national organization to collect phonographs, records and needles.

From land and sea; from camp, trench hospital and transport, comes the word of comfort this music brings to our boys.

Major General Bell, commandant of the department of the East has seen

service for forty years, and maintains that music is indispensable for the fighting man. He urges that this "fourth essential" be provided in a systematic way.

The Phonograph-Record Recruiting Corps expects to collect at least one million records during the week of Oct. 26th to Nov. 2nd. These records will be distributed to our soldiers through the Red Cross and other recognized channels.

Leave records or needles at Surgical Dressings Room, or Red Cross Work Shop any afternoon next week between 2 and 5 o'clock. They may be left at any time at the Y. M. C. A. or with any member of The Cecilians.

"The Talento" (parable) Matthew 25, verses 14 to 30.

The Good Samaritan (parable)—Luke, chapter 10, verses 25 to 37.

The Prodigal Son (parable)—Luke, chapter 15, verses 11 to 32.

The Great Supper (parable)—Luke chapter 14, verses 16 to 24.

**COMMISSIONED A FIRST LIEUTENANT**

Second Lieutenant Charles Elliott Jefferson, son of Mr. and Mrs. Wm. F. Jefferson, of Bloomingburg, has received his commission as First Lieutenant at Ft. Benjamin Harrison, where he is now stationed for an indefinite time.

Lieutenant Jefferson visited his home with his bride, a most attractive Indianapolis girl, whom he met when first stationed at Ft. Benjamin Harrison.

This morning a big-hearted man donated a quantity of potatoes for soldiers' families.

All of these families which have been so ill are now convalescent with the exception of the McMahan's, where three are ill.

The Home Service Department has supplied sheets, bedding and gowns wherever they have been needed.

## CLINTON YOUTH CYCLOPS VICTIM

Wilbur Williams, of New Vienna, was on board the ill-starred collier "Cyclops" which disappeared at sea with no clew to indicate what became of her, and has been officially listed as sunk at sea.

Wilbur Williams was the son of Mr. and Mrs. Chas. Williams, and enlisted May 1, 1917.

## FUNERAL SERVICES OF MRS. MARTIN HILLERY

The body of Mrs. Martin Hillery, who died Friday at the home of Mr. James Ducey, will be taken to the home of Mr. Hillery, on Broadway, this evening.

Funeral services will be held Sunday afternoon at 1:30 at St. Colman cemetery, Rev. Father Fogarty having the services in charge.

The casket will be open at the house only.

## THESE "DIVINE RIGHT" MONARCHS TO GO

THREE GENERATIONS OF HOHENZOLLERNS

Three generations of the house of Hohenzollern. In the center of this group is the Kaiser, egotistical war lord who has violated every known law of humanity.

On the Kaiser's left is his son, the Crown Prince, who declared he would start a war if his father did not. On the War Lord's right is Prince Wilhelm Frederick, oldest son of the Crown Prince. Autocracy must go, says President Wilson. These three are the pinnacle of it. A recent report reaching here from Swedish sources had it that the Kaiser would soon abdicate in favor of his grandson, Prince Wilhelm Frederick.

Rev. Griffin and his family moved from Ohio to Washington, D. C., two months ago.

Word was received today from their other son, Rev. Chas. E. Griffin, at Bakersfield, California, where he has been pastor of the Baptist church for three years, or since leaving the pastorate of the Fronton, Ohio, Baptist church, that he has accepted a call to the pastorate of First Baptist Church, Boise City, Idaho, and will move there from Bakersfield at once with his family.

Both ministers are well known in Washington C. H., most of their boyhood days having been spent in Fayette county, on their father's farm west of town.

## KINDNESS SHOWN TO SOLDIERS' FAMILIES

The Home Service Department of the Red Cross has been compelled to buy sheets and bedding to relieve the distress in soldiers' families, the large amount needed making it impossible for families to get them back from the laundry in time.

There has been much kindness shown in the community toward these soldiers' families. The Larimer Laundry has been doing their laundry work free and a number of the volunteer nurses donated their services.

This morning a big-hearted man donated a quantity of potatoes for soldiers' families.

All of these families which have been so ill are now convalescent with the exception of the McMahan's, where three are ill.

The Home Service Department has supplied sheets, bedding and gowns wherever they have been needed.

## Don't Get Mixed

There are some people who seem to have wandered far afield in the discussions that have followed after Germany's first bid for peace.

It is possible now to hear some individuals objecting to the promulgation of any armistice terms because Germany has asked for an armistice. Because Germany asked for an armistice they seem to think it would be in the nature of a concession to Germany to grant an armistice on terms which we ourselves announce.

That's ridiculous. An armistice is the first step in a surrender and may by its terms be just the same as an unconditional surrender.

No victorious armies ever ask for an armistice. No army asks for an armistice until hope of victory is gone.

Asking for an armistice is an acknowledgement of defeat and a plea for peace.

When the supreme war council of Versailles announces the terms upon which the allied nations will grant an armistice to Germany it is safe to assert that no military expert would be able to note any points of difference between compliance with those terms and compliance with a demand for an unconditional surrender.

It is amazing that any one should go wrong on a matter so plain.

## Help The Women

We have not been able to say enough in just praise of the splendid work the American women have done and are doing. Words of commendation have come for them from every one, without exception, officials and individuals. In every quarter their activity has been volunteered and accepted and the good results are beyond even estimating.

We, all of us, gladly and openly, acclaim our appreciation and our indebtedness and yet, we wonder sometimes, if we realize how great a handicap our good women have been, and are, laboring under and if we, substantially, appreciate how gloriously they have risen to every call and, ignoring the barriers placed in their way, have gone bravely to work facing every task and accomplishing their wonderful work.

Thus far we have contented ourselves with spoken words of praise. That will not do. Not only is it unjust to the women of the land who have performed such great and patriotic services, but it is imposing a handicap, unnecessarily too, on one of our greatest working units.

Women with the elective franchise would be much more effective than they are without it and we have been given abundant proof of what they can do even without the franchise.

But that is not the main neglect with which we should concern ourselves. There are many other and smaller spheres in which the handicap has been imposed upon our women—shamefully it must be acknowledged—and those handicaps can be, and should be, removed without, in any way, conflicting with the beliefs any of us may hold regarding the broader grant of powers.

Right here at home we have a condition which illustrates just how women are held back while at the same time we are calling for and accepting their assistance.

A woman is a member of the Council of National Defense, that organization which has to do with all war activities and through the Council of National Defense the great work, through the women of the land, has been directed.

Twenty million women of America are now linked up with the great council of the nation. Women's energies and women's patriotism is thus made available and amenable to the national need—the conservation of food, the propaganda, public welfare, child welfare and a score of other fundamental and vital needs are looked after by the women of the land.

Fayette county has its quota of workers and yet we sit idly by and either neglect or refuse to provide financial support that those women may carry forward the work which the nation directs.

We wonder sometimes if people, generally, know of that condition and approve it? We wonder if they realize that these women are struggling along as best they can and doing the work and paying the bills too?

It's a fact, it seems, nevertheless, and it isn't right. It isn't right to the women and it's a handicap on ourselves and our county.

Something should be done and done at once. From some source or other the necessary implements should be placed in the hands of these women. The work must be done. The nation requires it, the national council has ordered it and the women are ready to do it.

## POEM FOR TODAY

## AN AUTUMN BANQUET

I see a place where wild geese pass  
Down sounding wastes of sky;  
Where, brightening up the tangled grass,  
The light foot wind trips by;  
Where drowsed with autumn witcheries,  
The fields lie warm with dream;  
And red on heavy orchard trees  
The sweet juiced apples gleam.

There friendly maples, russet bright  
And flaming scarlet, shake  
Their glory down through glancing light;  
And shrewish blackbirds make  
Their council-talk of Far Away,  
And fluting Bob Whites all  
Their welcome to the autumn day  
Soft-showered over all.

And twilight, robed in gray and brown,  
Comes soberly and still.  
As, lingering, the sun goes down  
Behind a wooded hill  
Where cow-bells tinkle, like a ghost  
Of melody that stirred  
When Pan and all his happy host  
Of nymphs and dryads heard.

O dusty friend of gypsy days,  
Of memory that clings,  
Bright colored still as autumn haze,  
Round bygone wayfarings;  
You bring an old delight that bore  
Down ways youth's fancy trod  
To gleam, from more than Ophir's store,  
A sheaf of goldenrod!

## TWO ANTI-GERMAN REPORTED BREAKING FROM KAISER

Two anti-German have left Vienna on secret mission

(By Associated Press Cable)

Zurich, October 26—Prince Frederick Lobkowitz and Baron Nadherney, who represent the strongest anti-German tendency at Vienna left that city for Switzerland charged with a mission about which no details are given, according to the Neuse Journal of Vienna.

"GO TO JERICHO" MEANS SOMETHING

(Associated Press Correspondence)

Jerusalem, October 19—Allied soldiers in the valley of the Jordan know now how really unkind were persons who, in pre-war days, "wished them in Jericho."

To these fighting men, Jericho and its dust-covered environs mean heat, flies, mosquitoes and snakes, mildly advertised by the Turks in this message set up opposite the British lines: "Don't fear an offensive from us; we will come over later when you are all dead."

This summer, day after day, army thermometers along the Jordan registered from 105 to 125. Yet with scarcely a breeze, and these dust-laden, the Australian and New Zealand horsemen holding these lines, bringing from a temperate climate a reserve of health and vigor lacking in the natives, withheld the ordeal. It is the second or third summer that tells.

The flies and mosquitoes of the valley know no pity. In the early days of the fighting, when it was impossible to take the necessary sanitary precautions, they bred in myriads, but now pools of stagnant water have been eliminated and large tracts of scrub burned. As a result, the number of malaria cases has been surprisingly low.

Of the minor evils, the snakes are the worst, but due to the precautions taken by officers and men, casualties from snake-bites have been comparatively insignificant, despite the number of the reptiles and their enormous species.

One captured Turk had been attacked and bitten by a serpent four feet long, and as he lay on his cot in a British hospital, he told how he had strangled the reptile and then fainted. His nerves were shattered by the incident and medical officers said it would be years before they were again normal.

"How could we possibly meet a still further increased debit balance?" asks the paper in despair. "We had to realize our American securities to pay for raw materials while the United States was still neutral, to meet demurrage on our ships held in American ports."

The conclusion seems inevitable to the Gazette that Germany must so curtail her cotton and copper imports from the United States that they do not exceed, or only slightly exceed, her own exports of fertilizers, dyes, chemicals, etc. The rest of Germany's erstwhile imports from America, it says, can and must, be stricken off the list.

"Our imports of American agricultural cases has been surprisingly writer. The openings offered in Russia, Rumania and the Balkans are so great that we must push our own machinery there with all our might."

Washington, Oct. 26.—Director General McAdoo approved the form of contract to be entered into between the short line railroads and the railroad administration. This action cleared the way for more than 700 short lines to be taken under the protecting wings of the government. Representatives of the Short Line association had already agreed to the contract. Terms of the agreement will be made public later.

## HUNS PREPARING TO BOYCOTT U. S.

(Associated Press Correspondence)

Amsterdam, October 20—"No buying from America if it can possibly be avoided," must be the German watchword after the war, is the assertion of the Rhenish Westphalian Gazette, an important German industrial organ. The reason given by the paper is that, before the war, the balance of trade between the United States and Germany was against Germany to the extent of nearly 1,000,000 marks a year. Germany imported from the United States goods to the value of 1,711,000,000 marks, while German exports to the United States amounted to 713,000,000 marks. Dividends on German holdings of American securities, in addition, helped to pay the bill for goods bought in America.

The crying need now of the Health Department is more nurses. Bauman said 200 to 300 nurses could be placed forthwith.

## DECREASE SHOWN IN NEW CASES NOT CERTAIN SIGN

(By Associated Press Dispatch)

Columbus, O., October 26—Though only 4,000 new cases of influenza had been reported at noon today to the State Board of Health against 5,500 yesterday, Health Commissioner Bauman said this did not indicate a breaking of the epidemic, nor the fact that only 254 deaths reported today against 313 yesterday be construed as indicating abatement.

Only in isolated instances does there seem to be any indication of improvement, he said. The state as a whole shows no signs of improvement.

The crying need now of the Health Department is more nurses. Bauman said 200 to 300 nurses could be placed forthwith.

## Social and Personal

That those acceptable for canteen service for the Y. M. C. A. in France must be women who could meet any sort of an emergency at home is being reiterated three times a week to a large number of applicants by the reviewing board that considers all applications before they are sent on to Cleveland. Miss Helen Miller is chairman of the board.

Financial requirements are not so stringent as they formerly were. The woman canteen worker is now paid \$100 a month and given her transportation from her home to Europe. A uniform also is supplied her. She must provide all others clothing, trunk, suitcase and other personal effects. In addition, she must be ready to have on reserve at a Paris bank a sum equivalent to \$30 a month, to be used as an emergency fund in case of illness.

Expenses, too, vary with the station where the canteen worker is placed. At tiny villages near the front there is nothing to spend money for, but at stations in near cities the American woman finds dozens of demands made upon her pocketbook. Not the least of these is the sight of little French children who show only too plainly that they have had too little to eat and not enough clothing to keep them warm.

Several recommendations have been made by the local board, but no appointments have come through from headquarters.

Mr. and Mrs. C. F. Bonham are spending the week end with their daughter, Mrs. Ralph C. Browne, in Cincinnati. Mr. Bonham goes on to Pryor, Okla., Sunday to attend to his farm interests there. Mrs. Bonham remains with her daughter.

### DR. S. E. BOGGS OPENS OFFICE IN "Y" BLOCK

Dr. S. E. Boggs has opened an office in the Y. M. C. A. building, the former office of Dr. A. D. Woodmansee, opposite the Cherry Hotel.

It was Dr. Boggs' intention to retire when he moved his family to this city and gave up his office at Good Hope, but the present epidemic, combined with the scarcity of physicians and the great need of them, has influenced him to open an office and resume his practice here, at least until the present crisis is past.

Dr. Boggs had an enormous practice at Good Hope and is widely known as a successful physician, having had a large clientele throughout a splendid community, reaching from this city to Greenfield and Chillicothe.

He has been engaged in active practice since 1884, covering a period of 34 years. For some time he was one of the physicians at the Mt. Carmel Hospital, Columbus, and for several years the Ohio Penitentiary physician.

There was wide spread regret when Dr. Boggs announced his decision to retire and it will be welcome news that the body would be taken back to the old home in Pennsylvania for interment. Mrs. Hicks' father, Rev. Ellis of Erie, Pa., was expected to reach Martin's Ferry this afternoon and Mr. McLean goes there this evening.

A trained nurse has been secured for the daughter who is ill and hopes are given for her recovery.

Private Harry Brown, formerly of the Bloomingburg community, and brother of Mr. John Brown, of Bloomingburg, passed away at Camp Sheridan, Montgomery, Alabama, Saturday morning, according to word reaching Bloomingburg, Saturday.

The young man had been in the military service several weeks, and for some little time had been ill with influenza which developed into pneumonia.

The body will be brought back to the home of Mr. Jacob Henkleman for burial, leaving Montgomery Sunday.

Private Brown is the 25th Fayette county man who has died in the service.

### PATIENTS EAGER TO GET JELLIES

By Associated Press Dispatch.

Camp Sherman, Chillicothe, October 26.—Jellies, preserves, marmalades and sweets are among the delicacies craved by Camp Sherman soldiers convalescing at the camp hospital from influenza and pneumonia. Ice cream, too, is another welcome with whom several nearby communities are favoring the sick men.

Camp authorities have made arrangements with one ice cream manufacturer to furnish free 10 gallons of ice cream to the soldiers for every similar amount purchased by subscription for the soldiers.

One of the checks was passed on the Duffee grocery and the other on the Flowers Bakery. Both checks were dated October 10th, and were passed some two weeks ago, but the young culprit was not arrested until Friday when she was located in Hillsboro and arrested and brought to this city.

The only excuse offered for the offense was that she needed the money.

### COMMUNITY SHOCKED BY WORD OF DEATH OF MRS. J. HOWARD HICKS

Shocking the community and bringing sorrow to a host of friends came the word, Friday night that Mrs. J. Howard Hicks had died at three o'clock in the afternoon at Martins Ferry, where the family was located for the winter.

For some time Mrs. Hicks had not been well and an attack of the influenza developing into pneumonia, was made doubly serious by a complication, which refused to yield to the strenuous efforts made for her recovery.

The oldest daughter, Winifred, is also very ill with pneumonia, the shock of her mother's death aggravating the disease.

Mr. Hicks, well known architect, and his family have become part of this community since coming here from Pennsylvania a number of years ago and the removal six weeks ago of the family to Martin's Ferry, where Mr. Hicks is head draftsman for a large concern, was attended by general regret. They left their home in this city furnished and took a furnished house in Martin's Ferry. Mr. Hicks retaining business interests here and friends hoping that their removal was only temporary.

# 3000 AUSTRIANS MADE PRISONERS BY THE ITALIANS

(American Press)

London, Oct. 26.—British, French and Italian troops have opened a drive against the Austrians holding positions on the Brenta and Piave rivers, on the Italian battle front.

Considerable progress already has been made by the allies. The fact that nearly 3,000 prisoners were taken shows the surprise nature of the attacks, and it also may indicate waning morale in the Austrian army.

The place selected for the attack indicated that the present operations may be preliminary steps to a major offensive. If the high ground between the Brenta and Piave rivers is carried in sufficient force, observers believe it might be possible for the Italian army, supported by French and British units and artillery, and possibly by American troops, to reach the valley of the upper Piave and outflank the whole Austrian position on the lower stretches of the river, running from the Monte Grappa plateau to the sea.

In Mesopotamia the British again have gone on the offensive against the Turks, and at last accounts were making considerable progress. In Albania and Serbia the operations of the allied forces are tending toward the slow but sure evacuation of the invaded districts by the enemy forces.

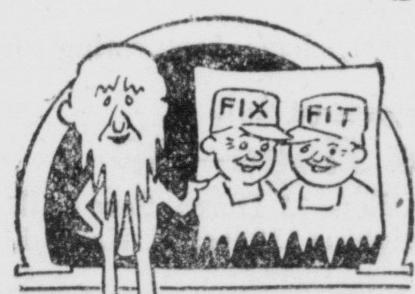

In the northern French theater, the British are centering their efforts south of Valescenes to cave in the salient between that city and Lequesnoy and move on toward the im-

portant junction town of Maubeuge, with the twofold purpose of finally encompassing Maubeuge and reaching the Belgian border.

Everywhere the Germans are offering the stiffest of resistance, but nevertheless they have been compelled to give up the town of Maing and most of the intervening points southward along the railway to Lequesnoy, which now is all but in British hands.

Between the Oise and Serre rivers American naval gunners with 16 inch guns have joined the French in their efforts to hammer their way northward toward Hirson, one of the key positions in the German line.

American shells from these guns are being hurled against both Verins and Rozoy. Further progress has been made by the French in this region, but only after the hardest kind of fighting.

Likewise on both sides of the Meuse river the Americans have advanced their line, notwithstanding the strong resistance of the enemy. North of Grandpre, which lies in the valley above the famous Argonne forest, several hills of the utmost importance from a strategic standpoint have been taken from the desperately resisting enemy machine gunners and artillerists. Numerous violent counter attacks have been launched by the Germans against the Americans, but all of these have been successfully repulsed.

## WAGE ADVANCES DENIED TO MINERS

(American Press)

Washington, Oct. 26.—National Fuel Administrator Garfield refused to grant bituminous coal miners an increase of wages, sought in connection with the plan for stabilization of wages worked out for the anthracite miners. He held that the bituminous situation did not require wage increases.

The bituminous mine workers, who are under agreement with the government to continue operations at the existing scale until the end of the war or for a period of two years, were told through Frank J. Hayes, president of the United Mine Workers, that existing information did not warrant increases for them as a part of the government's general plan of wage stabilization.

The refusal to grant the increase now, it was said at the fuel administration, does not in any case close the door toward any information which may be submitted at any time.

Of the situation in the anthracite fields, a statement by the administration says: "It is known that as regards the anthracite workers the available information indicates a manifest inequality of wages, as compared with those in other trades."

## NEW CZAR!

(Associated Press Correspondence)

Amsterdam, October 1.—Bearing a remarkable likeness to the late Emperor Nicholas, of Russia, a pretender who claims to have escaped from Bolshevik bondage and to be the former Emperor, is reported trying to bribe peasants in the Vladimir district of Russia to revolt against the Soviet government, according to the Vetschermaya Ogni, a Petrograd newspaper. The impostor is said to have abundance of money and to have claimed he was seeking a refuge among his "faithful peasants."

## STRETCH THE FUEL SUPPLY

Coal is said to be in sufficient supply just now in Ohio to take care of all household demands. After last winter's experience, the wise man will fill his coal bin at once.

Over four million tons of bituminous coal are used this year in the navy—an increase of over 250 per cent.

When this community burns wood equivalent to a carload of coal, it has saved the mining, the transportation and the handling, and in these days of labor shortage that is a notable achievement in patriotism.

Labor, transportation and unusual demand all are factors in the coal situation. When you save coal, you push the war along by releasing men, saving the railroads and helping supply the demand.

Influenza threatens the coal supply of the nation. With every effort to increase production being made, the little microbe has shut down mines that can ill be spared.

One department of the government has more than saved its cost to the public. The Fuel Administration has kept the price within reason and the supply fairly constant.

The nation relies upon 250,000 industrial and railroad firemen and 15,000,000 household firemen, to stretch the fuel supply over the largest possible use. True patriotism does not consist merely of waving the flag.

The man who makes eight tons of coal take the place of ten this winter is doing much to win the war.—U. S. Fuel Administration.

## WILSON'S APPEAL STIRS REPUBLICANS

(American Press)

Washington, Oct. 26.—Return of the Democratic congress is sought by President Wilson, who appeals to the country for a vote of confidence in his leadership "both at home and abroad."

In a statement addressed to "my fellow countrymen," the president said that the Republican leaders "have unquestionably been pro-war, but anti-administration," and declared the election of a Republican majority to either house of congress would "certainly be interpreted on the other side of the water as a repudiation of my leadership."

The president said he would accept the country's verdict without cavil, but that if it was adverse the power to administer the great trust assigned to him would be seriously impaired. The president adds: "I have no thought of suggesting that any political party is paramount in matters of patriotism. I feel too keenly the sacrifices which have been made in this war by all our citizens, irrespective of party affiliation, to harbor such an idea. I mean only that the difficulties and delicacies of our present task are of a sort that make it imperatively necessary that the nation should give its undivided support to the government under a unified leadership, and that a Republican congress would divide the leadership. This is no time either for divided counsel or for divided leadership. Unity of command is as necessary now in civil actions as it is upon the field of battle."

**Republicans Issue Statement.**

The president's action electrified Republicans at the capitol, who issued a formal reply in the name of the party leaders in the senate and house and the chairman of the senate and house Republican congressional campaign committees.

The Republican statement, declaring the minority party in congress had supported the administration policies since the war with a unanimity and an absence of criticism unprecedented in party history, pointed to the record as proof.

The war, the Republican statement contends, is not the president's "personal war" nor the war of congress, nor of a party, but of the American people, and declares "the Republican party, representing more than half the citizenship of the country, demands its rightful share" in the burdens and responsibilities it imposes.

If given a majority in either or both houses, the leaders said, the Republican party would drive forward the war and hasten victory and would "check the waste now going on of money" given by the nation.

The statement criticizes the president for urging voters to support Henry Ford and other anti-Republican candidates and accuses him of partisanship. The statement is signed by Senators Lodge and Smoot and Representatives Gillett and Fess.

Several senators and representatives, both Republican and Democratic, issued personal statements, and most leaders on both sides prepared for the debate which was expected in the senate when it reassembles Monday after the weekend recess, and possibly in the house.

**STATE IS GAINING ON THE EPIDEMIC**

(American Press)

Columbus, Oct. 26.—The state health department sums up influenza conditions in Ohio as follows: "Epidemic cases are increasing slightly, but the state situation shows the good effects of the control being established everywhere."

Reports from 67 of 80 cities showed 6,553 new cases and 372 deaths. Cleveland figures are included in these totals.

James E. Bauman, acting health commissioner, says he feels the situation is as well in hand as could be expected and every effort must be made to keep it that way. He sent more than a dozen telegrams to local health officers, ordering them to keep on the closing ban. In most instances, he says, health officers don't want to open things, but they are being urged by certain people and they haven't the courage to reply with a blunt "no" unless they can show an order from the state department backing them up.

Complaint comes from some places that teachers have been idle for nearly two weeks and that this is a waste of services which might be rendered. This attitude is characterized by Bauman as "perfect insanity." Rather have teachers idle for while longer, he says, than to have a renewed outbreak of the epidemic and consequent deaths.

SUGGESTS THAT CHAPTERS OBSERVE "SILENT MOMENT"

Suggestion has come from Red Cross headquarters at Washington that a given signal at noon, work be suspended in all Red Cross workrooms for one minute.

The resolution already adopted by the Red Cross War Council reads in part: "During this time, in silence, we, the members of the American Red Cross, will solemnly concentrate our minds upon the beloved soldiers and sailors overseas who are nobly offering their all, even unto their lives, for us. We think as one, hope as one, for their definite victory and individual well-being, consecrating ourselves anew to our country and to those who fight for her, becoming one with them in service."

Nation-wide observance of the "Silent Moment" in A.R.C. organizations to begin when all chapters of the organizations hold their annual meetings, is suggested by the War Council.

BRINGING UP FATHER

French surgeons and all the nurses were gone. The Germans were within a half-dozen kilometers and advancing. Heavy artillery, set in the hospital grounds, made a terrific din. But the American ambulance sections, kept on coming to Annel Chatteau. They did not know where else to go. Two Red Cross doctors, Major Tarnowsky and Major Morehead, stayed on in the deserted chateau. Two canteen women volunteered from Compiegne.

The two doctors kept on operating the canteen women handing them instruments and dressings, the Red Cross truck drivers holding candles and bringing in and carrying out the wounded. A day and a night and a second day the two doctors operated. The crisis passed. The regular attendants returned, the routine was resumed.—From the November Red Cross Magazine.

**RED CROSS CARES FOR CZECHO-SLOVAK REFUGEES**

More than 20,000 Czechoslovak refugees, 4,000 of them children, are being cared for by the Red Cross at Vladivostok. As the Allies and Czechoslovak move westward, the Red Cross follows with two sanitary trains, a first aid unit, a disinfecting train, a rolling canteen and a 200 bed base hospital. Ten thousand refugees must be provided for in the Trans-Baikal region. — From the November Red Cross Magazine.

**AMERICAN NURSES CLUB**

To meet the need of American nurses in France the London Chapter of the American Red Cross has founded American Nurses' Club at 42 Grosvenor Place, London. This is intended to be the nurses' headquarters in England.

The Countess of Granard, formerly Miss Beatrice Willey, New York, has given up a floor of Forbes House to start an annex to the nurses' club. Bedrooms are available for the use of members at the nominal charge of half dollar a night, theatre tickets are often put at the disposal of members, and the committee in charge arranges for drives and excursions through London. The club is financed by the American Red Cross.

When shipping by express they should not exceed 20 pounds in weight or two cubic feet in volume, should be of wood with screw or hinged top.

Mail matter should be addressed as prescribed by postal regulations. Express packages should be forwarded in care of the Supply Officer, Fleet Supply Base, Twenty-ninth Street and Third Avenue, South Brooklyn, N. Y.

Perishable food products should be enclosed in cans or glass jars.

All packages must be plainly marked with the name and address of the sender together with a notation, "Christmas present."

If for United States naval vessels abroad, shipment should reach New York not later than Nov. 15.

**NATIONAL BANK WILL HAVE MORE POWERS**

(American Press)

Washington, Oct. 26.—Comptroller of the Currency Williams has sent to national bankers in Ohio and other states a letter calling attention to a recent amendment to the Federal reserve law, which has received the approval of the president and therefore is a part of the financial measure. By the amendment greatly enlarged powers are granted to national banks. They may now open trust departments, act as trustee, executor, administrator, registrar of stocks and bonds, guardian of estates, assignee, receiver, committee of estates and lunatics and may act "in any other fiduciary capacity in which state banks, trust companies or other corporations which come into competition with national banks are permitted to act under the laws of the state in which the national bank is located." As a preliminary to the exercise of these new powers it is necessary to obtain a permit from the federal reserve board.

ALLIES IN ACCORD

(American Press)

London, Oct. 26.—It is understood that President Wilson's latest note to Germany is approved by the allies and represents, in a general sense, their views of the situation. It has been erroneously assumed that the allies have been leaving the brunt of the negotiations to fall on Mr. Wilson, but as a matter of fact, when the central powers elected to approach one of the belligerents, singularly, the others stood aside in the preliminary stages of the negotiations.

Now that the president has consented to submit the request for an armistice to the other belligerents, there is no question that individual action will give place to definitely concerted conduct of the situation and that the recommendation of the allies' naval and military commanders will constitute the joint terms of the associated powers.

**CAMP SHERMAN'S BREAD EATERS**

By Associated Press Dispatch.

Camp Sherman, Chillicothe, O., October 26.—The Yanks at Camp Sherman ate 17,500 loaves of bread one day this month, says Lieutenant Edward B. Howard, camp subsistence officer. This is equal to 35,000 pounds of flour, the lieutenant added. Not only did the men eat lots of bread, but 90,000 pounds of potatoes, 3,000 pounds of coffee and 20,000 pounds of sugar, besides hundreds of pounds of other food the same day.

Butter consumed in the given day amounted to 800 pounds, lard 3,000

**RED TERROR REIGNS IN DARKEST RUSSIA**

(American Press)

London, Oct. 26.—Executions are the most merciful part of the "red terror" practiced in Moscow and Petrograd, according to several neutral observers who have just arrived in Sweden. These men have watched Bolshevik activities in the two great Russian cities for many weeks. While thousands, perhaps, have been executed, the list of victims is far less appalling than the ruthless manner in which political prisoners have been sent to death without a semblance of legal trial, the heartlessness with which they were treated and the utter indifference of the Bolshevik officials to appeals of heartbroken relatives. Verified stories of scenes at Moscow and Petrograd prisons make the cruelty of the French revolution seem almost humane. Women prison officials, and many of them are women, are even more heartless than men, and trample under foot all the better instincts expected of their sex.
